

PLAN FOR PAVING DIVISION STREET

City Commissioners Will Discuss West Tulsa Matter Today.

WILL MAKE LOW BIDS

Offer of Less Than \$25,000 to Be Presented by One Bidder.

Plans for paving Division street in West Tulsa, to connect city paving with the Red Fork hard surfaced highway, are to be discussed at the meeting of city commissioners this morning. It is not probable that definite action will be taken, due to the absence of Mayor F. H. Evans and Commissioner H. F. Newblock, who are taking their vacation.

Through the chamber of commerce, a bid not more than \$25,000 is to be presented for paving Division street. Unofficial estimates have placed the cost at from \$12,500 to \$15,000. The bid to be made through the chamber of commerce is from a local paving firm and provides for a roadway 24 feet wide, to be six and a quarter inches thick at edges and at least eight inches thick in the middle, and to conform otherwise to specifications for county roads on file with the County Engineer, Dan W. Patton.

The contractor wants three weeks in which to assemble material, and 30 working days in which to complete the half-mile stretch of highway.

While the city has virtually determined to pave Division street, it has not definitely decided upon a method of making paving possible. The present plan regarded most favorably is to pave the street in a unitary manner, letting the city handle the script and paying for the work with money from some available fund.

This would greatly facilitate paving, as professional script buyers have modestly withdrawn from active purchasing.

RETURN MAN TO MISSOURI

Arrested Here, Lindsey Is Taken to Springfield for Trial

Acting on a telegram received Sunday afternoon from Springfield, Mo. Sheriff James Woolley Sunday night arrested C. R. Lindsey, an employee of the Ajax gasoline company at Jenks, wanted in the Missouri city on the charge of embezzlement and bond forfeiture. Lindsey was returned to Springfield yesterday afternoon by Sheriff J. W. Webb of that city.

After his arrest Lindsey told Sheriff Woolley that he had been charged with embezzlement at Springfield, but that he left that city under the impression that the case had been settled and that no further prosecution would be conducted against the defendant.

A BIG ROBBER KILLED

Prominent Business Concern Captures Famous Bandit. Long Chase and Many Bold and Desperate Skirmishes Made Before Final Capture.

In Deadly Struggle the Bandit Is Shot Through the Heart. Bandit Was Practically Friendless and No Arrests Have Followed.

One of the boldest, most heartless and terrible robbers known in this country was shot through the heart and instantly killed just before committing further depredations. The amount of suffering caused by this cold blooded robber is perhaps the worst known in the history of this country. He was of a national reputation and had defied many attempts at arrest. His meanness of heart was all the more deplorable because he chose as his victims the most helpless and struck them most ruthlessly. Even invaded the homes of widows and orphans. The scene of the final struggle was at 195 East First street, where Traders No. 4 fired the big gun that floored him! His name was H. C. Living, commonly known as H. C. L. As a result of this killing, in the quest of which Traders Number 4, at 195 East First street, instituted a most aggressive campaign; the people of Tulsa and vicinity are relieved of a great terror. The prices of the staple commodities have been reduced from 5 to 10 per cent during their campaign of price reduction of the last three weeks. It was a big stroke and is the natural outgrowth of their business management; a long period of study, planning, negotiation and alertness. Their large stock of goods is fast being absorbed and is being replaced from their \$100,000 buy which was made on the basis of the lowest prices that have existed during the last year and the lowest that can be anticipated for the next six months; bought just as carefully as we would work a problem in algebra or geometry. All doubtful equations are eliminated and we know the answer is RIGHT. Traders Number 4 has saved the people of Tulsa and vicinity thousands of dollars in their recent campaign and are prepared to give the people a series of Big Treats during the fall and winter that will absolutely be a pleasure and satisfaction to all interested observers.—Adv.

No Teacher Shortage in Schools of Tulsa County for Fall Term

Because of the comparatively high salaries paid school teachers in Tulsa county and the improved conditions under which teachers conduct their classes through the consolidation of schools, one month before the opening of the fall term the maximum teaching force has been signed with the exception of five vacancies. According to reports received by Mrs. Minette Hedges, superintendent of schools of this county, Tulsa county is in a better condition with regard to number of teachers, school buildings and finances than ever before, and in many districts funds are available to conduct the schools for the entire twelve months, if this were necessary. Many counties in the state have reported a great deficiency in numbers in the teaching force and nearby counties have in several instances found a shortage of from 10 to 20 teachers in their rural school districts.

OLD MAN STRUCK BY AUTO

Charge of Reckless Driving Filed Against Driver of Car.

Charged with reckless driving of an automobile while in an intoxicated condition, W. C. Smith and Reta Smith, arrested Saturday at Shiloh, after running over J. L. Day of Shiloh, made bond of \$2,500 in the court of Justice H. J. Day in this city and were released for trial today.

Day, an aged man, was struck by the car operated by Smith, near his home, and both his legs broken. Smith claims his home is in Fairfax, Osage county.

Had Too Much "Choc."

Dave Couch, negro arrested at Hickory Sunday in possession of 20 gallons of "choc" beer, entered a plea of not guilty at his arraignment yesterday before county court, and was held under a bond of \$500 for trial at the term of court beginning October 4. W. T. Kuhn and W. F. Mayfield, deputy sheriffs, made the arrest and confiscated the liquor.

COURT TO ALLOW MID-CO MEETING

Modify Order Preventing Assemblage of Mid-Co Stockholders.

Modifying the restraining order made August 11, whereby M. M. Travis and the Mid-Co gasoline company was ordered to return the company books and records to L. E. Z. Aaronson, and further order was made yesterday by M. C. Rodolf, acting judge of county court, in which the meeting of the stockholders of the Mid-Co company, are permitted to hold their called meeting August 21. The order provides that should the removal of Aaronson

from office as secretary-treasurer of the company be acted upon, a record of the meeting shall be kept and placed in the hands of the court should the legally entitled voters decide to take such action.

The order is the result of suits filed by the Mid-Co company against Aaronson, and his son, A. E. Aaronson, in which their removal as directors and officers of the company is asked. In their suits filed Friday, the Aaronsons deny any misappropriation of company funds and declare they are entitled to an injunction preventing the Travis brothers from in any way interfering with them as officers of the company.

Firemen Were Victors.
SAPULPA, Okla., Aug. 16.—Sand Springs ball team and the firemen's team of Sapulpa played a fast baseball game yesterday afternoon. The score was 6 to 3 in favor of the firemen.

MUST WASH MILK BOTTLES SAYS LAW

But Inspector Says It Should Be Done of Own Accord.

"Every housewife should wash milk bottles before returning them to the store or delivery wagon," P. L. Long, city sanitary inspector

declared yesterday. "This is made compulsory by city ordinance, but housewives should do this of their own free will and accord, if for nothing more than to help make Tulsa's milk supply better."

"Frequently we find returned milk bottles that reach the dairyman in a filthy condition. Sometimes there is a slight amount of milk left in the bottom of the bottle; this milk sours, and is an attraction for flies. It would greatly facilitate the dairyman if every bottle were washed. Even if they are only semi-clean, it will help greatly, and if this cleaning practice becomes general, will result in less impure milk."

MUST REDUCE OUR STOCK AT ONCE MUST REDUCE OUR STOCK AT ONCE

We have a right to feel a genuine pride in what we have done. We are very much engrossed, indeed, with what we are going to do in the food business, and the discharge of our duties to the public is a pleasure. There is no "secret" about our success. There is no "mystery" about our plans. It is simply a proposition of giving a dollar's worth of merchandise for a dollar in United States coin and repeating frequently. Our object, without reservation, is to conduct a high class, dignified and a positively sanitary food center. The people want it and we have it. If you have not already patronized this, the PEOPLE'S EXCHANGE, come to see us. The very atmosphere, courtesy and an abundance of high-grade staples will delight you. We are doing business on the presumption that all the public wants is a square deal. That's where we get our assurance of the future. That is what has made the PEOPLE'S EXCHANGE what it is today. In our enthusiasm we liken the PEOPLE'S EXCHANGE to a giant shock absorber, making the road-way of life easier for thousands. If you fail to visit the PEOPLE'S EXCHANGE then we both lose, that's all. For it is bigger and better.

We have in our store for sale Tuesday only, 200 sacks of C. & H. the finest white cane sugar, per sack—
